

Special Meeting  
February 4, 2015, 5:30 p.m.  
City of Oswego, Kansas

Present: Councilmembers Darren Tynan, Kelly Vance, Dee Brown, Jane Rea and Susan Bringle with Mayor Glenn Fischer presiding.

Absent: Councilmember Bill Owens

Also Present: City Superintendent Calvin Jurgensen and City Clerk Carol Eddington.

The meeting was called to discuss purchasing fuel for the airport. Supt. Jurgensen said that the price per gallon is at \$2.99 now and is going up. He wants to take advantage of the current price and make a purchase now. Since the city only needs 3,800 gallons, and cannot purchase the whole load that is available at that price (8,000 gallons), the city can purchase the fuel at \$3.26 per gallon, which is still .40 lower than anywhere else. Purchasing fuel at this price will make for the overall price of the fuel we will have in the tank \$3.67 per gallon. This will make the fuel price competitive with surrounding airports.

Rea made a motion and Tynan seconded to approve the requested purchase. Motion carried.

Mayor Fischer asked the Council if they wanted to authorize Supt. Jurgensen to make fuel purchases when necessary instead of calling a special meeting each time. After some discussion, Bringle made a motion and Rea seconded to authorize Supt. Jurgensen to purchase airport fuel with the stipulation that the purchase keeps the city at a competitive edge and with the approval of the Mayor. Motion carried.

Brown made a motion and Rea seconded to adjourn the meeting at 5:40 p.m.
